

# Private Colleges, Universities, and Seminaries

Two- and four-year private, nonprofit colleges, universities, and theological seminaries are included in this section.

Private institutions are privately owned and operated and, in addition to tuition and fees charged to students, receive a major portion of their funding from private donations.

All of the four-year private colleges and universities offer a bachelor's degree, while some offer a certificate, associate, master's, and/or doctoral degree program. One two-year private college (Saint Catharine College) is included in this section; it offers a certificate program and associate degree.

Theological seminaries are private graduate schools that offer specialized programs of religious study to prepare students for a variety of ministries. The programs are two to five years in length and lead to a master's or doctoral degree.
